

HAVERHILL AT WORK

ATTERTON & ELLIS
ENGINEERS

Atterton & Ellis

Based in Hamlet Road and housed in a strange mix of buildings including a former silk mill, 1800s town house, Victorian iron works and some later additions, Atterton & Ellis are renowned for making lawn mower grinding machines. The original works closed in 2012 when they moved into more modern premises on the industrial estate.

Workers at Atterton and Ellis with the latest lawnmower grinding machines in the assembly shop.

Mr Harold Hardy with some lawnmower grinding machines destined for Japan.

Serving local and worldwide markets
